Index □ Volume 43, 1995

ARTICLES (by title)

Competencies for distance education professionals, Elizabeth C. Thach, and Karen L. Murphy, 43:1, 57–79.

Computer-assisted foreign language learning: Effects of text, context, and gender on listening comprehension and motivation, Sólveig Jakobsdóttir, and Simon Hooper, 43:4, 43–59.

Dynamic visual support for story comprehension and mental model building by young, at-risk children, Diana L. M. Sharp, John D. Bransford, Susan R. Goldman, Victoria J. Risko, Charles K. Kinzer, and Nancy J. Vye, 43:4, 25–42.

Effects of cooperative learning on performance, attitude, and group behaviors in a technical team environment, Jamie C. Cavalier, James D. Klein, and Frank J. Cavalier, 43:3, 61–71.

The effects of cued interaction and ability grouping during cooperative computer-based science instruction, Gregory P. Sherman, and James D. Klein, 43:4, 5–24.

An examination of computing styles among teachers in elementary schools, Melissa Evans-Andris, 43:2, 15–31.

A generative theory of textbook design: Using annotated illustrations to foster meaningful learning of science text, Richard E. Mayer, Kathryn Steinhoff, Gregory Bower, and Rebecca Mars, 43:1, 31–43.

A historical review of visualization in human cognition, Lloyd P. Rieber, 43:1, 45–56.

Humor me: A call for research, James L. Teslow, 43:3, 6–28.

Instructional analogies and the learning of concepts, Timothy J. Newby, Peggy A. Ertmer, and Donald A. Stepich, 43:1, 5–18.

Learner control in full and lean CAI programs, Robert D. Hannafin, and Howard J. Sullivan, 43:1, 19–30.

Managing courseware production: An instructional design model with a software engineering approach, Chia-Shing Yang, David M. Moore, and John K. Burton, 43:4, 60–70.

Matching learner preference to amount of instruction: An alternative form of learner control, Eric T. Freitag, and Howard J. Sullivan, 43:2, 5–14.

A model for understanding formative evaluation in instructional design, Cynthia Weston, Lynn McAlpine, and Tino Bordonaro, 43:3, 29–48.

Preschool children's comprehension of a Sesame Street video tape: The effects of repeated viewing and previewing instructions, Marie A. Sell, Glen E. Ray, and LaNeel Lovelace, 43:3, 49–60.

Situated cognition and learning environments: Roles, structures, and implications for design, Jeong-Im Choi, and Michael Hannafin, 43:2, 53–69.

Using electronic meeting system support in the design of the graduate core curriculum, Dennis W. Spuck, Doris L. Prater, and David B. Palumbo, 43:2, 71–80.

Using a hypertext environment for teaching process writing: An evaluation study of three student groups, Linda Lohr, Steven M. Ross, and Gary R. Morrison, 43:2, 33–51.

INTERNATIONAL REVIEWS

Beyond American's view of educational technology: Our sister journal in Taiwan, Republic of China, by Mei-Yan Lu, 43:4, 92–99.

Canada's SchoolNet initiative, by David Mappin, 43:2, 94–95.

Constructing educational technologies: Interactive television for teachers' professional development in Australia, by Terry Evans, 43:1, 94–98.

Creating educational software and transforming the curriculum: Projects that are changing the face of the Russian school, A. Iu. Uvarov, 43:3, 81–86.

The development and validation of a distance and open learning environment scale, Olugbemira J. Jegede, Barry Fraser, and Darrell Fisher Curtin, 43:1, 90–94.

Ontario's Royal Commission on Learning, by Ross Mutton, 43:2, 89–94.

Social and educational reform in New Zealand: The promise and threat of information technology, by Bruce W. McMillan, 43:4, 80–92.

RESEARCH ABSTRACTS (by title)

Achieving educational excellence by increasing access to knowledge, Task Force on Education Network Technology, 43:3, 87–88.

Association of Small Computer Users in Education (ASCUE) summer conference proceedings (27th), Rich Huston and Donald Armel, Eds., 43:3, 92.

Building the system: Making science education work. Putting the pieces together. Proceedings of the annual conference (2nd), National Science Foundation, 43:1, 102; 43:3, 93–94.

Changing the tire on a moving bus: Barriers to the development of professional community in a new teacher-led school, M. Peg Lonnquist and Jean A. King, 43:1, 100.

Characteristics of media service departments at mid-size universityies, Larry Johnson, 43:1, 99–100.

Classifying interaction for emerging technologies and implications for learner control, Richard A. Schwier, 43:3, 88–89.

Deaf education using interactive television, Barbara Luetke-Stahlman, 43:3, 89–90.

Distance Learning Reserach Conference proceedings, Ann Yakimovicz, Ed., 43:3, 92–93.

Educational technology curriculum: K–12. Living with technology: A life-long learning process, South Orange–Maplewood School District, New Jersey, 43:3, 90.

Effect of hypercard and traditional performance assessment methods on expert-novice chemistry problem solving, David D. Kumar and others, 43:3, 88.

Effects of two-way visual contact on verbal interaction during face-to-face and teleconferenced instruction, Jeffrey W. Bauer and Landra L. Rezabek, 43:3, 91.

The electronic classroom, Richard J. Mueller, 43:2, 96.

Electronic literacy. Perspectives in reading research no. 4, David Reinking, 43:3, 94–95.

Emerging technologies: Applications and implications for school library media centers, Kathleen W. Craver, 43:4, 100.

EPIC computational models of psychological refractory-period effects in human multiple-task performance, David E. Meyer and David E. Kieras, 43:3, 94.

Evaluating the impact of technology at Peakview Elementary School: The full report, Brent G. Wilson and others, 43:3, 91–92.

Feature films for communication courses: A bibliography, Russell F. Proctor II and Scott D. Johnson, 43:1, 103.

Group investigation: Structuring an inquiry-based curriculum, Jack Huhtala, 43:3, 94.

Home improvement II (Using television in skill development), Tobie R. Titsworth and James Baum, 43:1, 101–102.

Incorporating total quality management in an engineering design course, V. Wilczynski and others, 43:1, 100.

Instructional design and development competencies in a new academic program, John V. Dempsey and Karen L. Rasmussen, 43:1, 100–101.

Integrating technology in the classroom: Process

evaluation, strategies and issues, Debbie Atkins and others, 43:1, 102–103.

Managing information technology as a catalyst of change. Proceedings of the CAUSE Annual Conference, 43:3, 88.

New partnerships: People, technology, and organizations, Michael Orey, Ed., 43:3, 93.

Overcoming barriers in the use of adaptive and assistive technology in special education, Kathy M. Bushrow and Keith D. Turner, 43:3, 89.

Promises & challenges. Proceedings of the annual conference on multimedia in education & industry (2nd), Association for Applied Interactive Multimedia. 43:1, 101.

Report on the effectiveness of technology in schools, 1990–1994, Jay Sivin-Kachala and Ellen R. Bialo, 43:3, 92.

Users' perspectives on U.S. government information and services on the Internet: A summary from two seminars. A report prepared for The Information Infrastructure Task Force, Joe Ryan and Charles R. McClure, 43:1, 103.

Using instructional technologies in the preparation of teachers for the 21st-century, Bruce O. Barker, 43:3, 90–91.
